

Distribution 'rations' and 'iftar'

50 'rations', as shown with the photo on the left, could be distributed

A very generous individual donation enabled us to finance the distribution of 'rations' for 50 families and several 'iftar' (meal at the end of a day during Ramadan) for families of students of the SAYA SCHOOL MAIRA AKKU.

For the 'iftar' the friends Yamin bought food, with which some teachers and very needy widows (who got a small amount of money for it) then prepared the 'iftar'. Because of the Covid 19 restrictions families could not be invited to SAYA SCHOOL and the meals were brought home to the families. On several evenings, 6 families (approx. 40 people) received an 'iftar'.

At a time when the most needy families can hardly finance a simple daily meal from their own resources, these fasting breaks during Ramadan were an event that was accepted with great gratitude by the families because of their richness, diversity and the nature of the offering.

**THANKS / SCHUKRIA to the donor,
 who enabled us to realize this aid programm!**
